# Welcome

---

Welcome to the Cradle Ultra Trail! The Cradle Ultra is around the corner and we are looking forward to welcoming you to this special part of the world, the Cradle Nature Reserve, which is situated in a World UNESCO Heritage site.

The reserve is steeped in history. You will be running past ancient trees, rare plants, sites of Boer War Battles and crossing over reefs that are 500 million years old. It is also home to two active anthropological sites unearthing hominid fossils that reveal stories of the origins of life on our planet billions of years ago and of the evolution of humankind over the last few million years.

Although it is situated just 20km from JHB, you will soon forget that civilisation is around the corners as you start your journey. Enjoy the moment, look around, spot the animals, listen out for the birds and get back in touch with nature.

It is a special part of this world and we are privileged to have been given the permission to host a run in the reserve once again. We hope you enjoy the run, the event overall with family and friends, and also spending time doing what you enjoy – running.

See you at the finish line!

Regards, Sean

## LITTER

The Cradle Nature Reserve is a stunning part of the country, and we are committed to preserving its natural beauty. As you enjoy the trails, remember to leave only your footprints behind. Any runner caught littering will be disqualified immediately. All waste must be carried with you and disposed of properly at a later stage.

**Important Note:** The Cradle Ultra Trail is a **LITTER-FREE EVENT**. This means there will be no water sachets provided at water points. A limited number of reusable plastic cups will be available. Participants must bring their own hydration packs, water bladders, containers, or water bottles. Let's work together to protect this beautiful environment while enjoying the run!

# SIGNAGE AND ROUTE MARKING

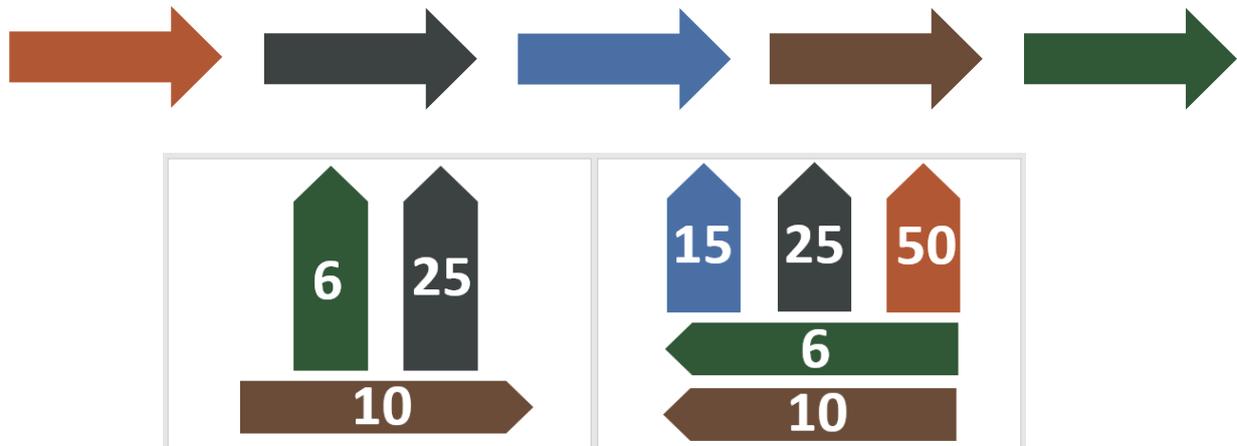

The majority of the run is mainly on jeep tracks that follows a clear and accessible jeep track making navigation easy. However, we highly recommend that you download the GPX Files and load them onto your watches. The maps and GPX files are available on the website under each distance - <https://www.cradleultratrail.co.za>

If you do not have a watch, please download the “Footpath” app. This allows you to follow the route using GPS and no data. <https://footpathapp.com/blog/footpath-android/>

## DIRECTIONAL BOARD

Directional boards will be strategically placed at ‘decision points’ along the route to indicate where various distances diverge. Below is an example of those boards. Please keep an eye out for them and follow your race colour.

50KM – RUST | 25KM – GREY | 15KM – BLUE | 10KM – BROWN | 6KM - GREEN

## ROUTE MARKERS

3 bright orange markers will be placed along the route as guidance markers and at every intersection, ensuring you stay on the right path throughout the entire route. The example below indicates a turn to the left.

# POSITIVE ATTITUDE

Race officials will monitor the conditions of all Participants and have been instructed to remove any Participant from the race if they are unable to continue and pose a risk to their safety. Your safety is still our first priority.

## **ENVIRONMENT and ANIMALS**

The Cradle Nature Reserve is a UNESCO World Heritage site and the custodians have given us permission to use their venue for the Cradle Ultra Trail. Please respect the venue, the area and stay on the market trails / routes. Please do not deviate from the route or take any short cuts or pick any flowers or plants. The reserve is also home to a variety of animals. Please keep your distance from them and give them right of way.
